Offer page, payment journey, assessment report, risk tracker and practical control templates. The visuals illustrate a sample service w

PROJECT 02

Virtual Assistant & Executive Assistant Operations

STREAMLINING OPERATIONS. SAVING TIME. SUPPORTING GROWTH.

Provided ongoing virtual assistant and executive assistant support to a business owner, helping streamline day-to-day operations, manage key processes, and improve overall productivity.

THE GOAL

To reduce the client's administrative workload, improve organization, and create efficient systems to support business growth.

MY ROLE

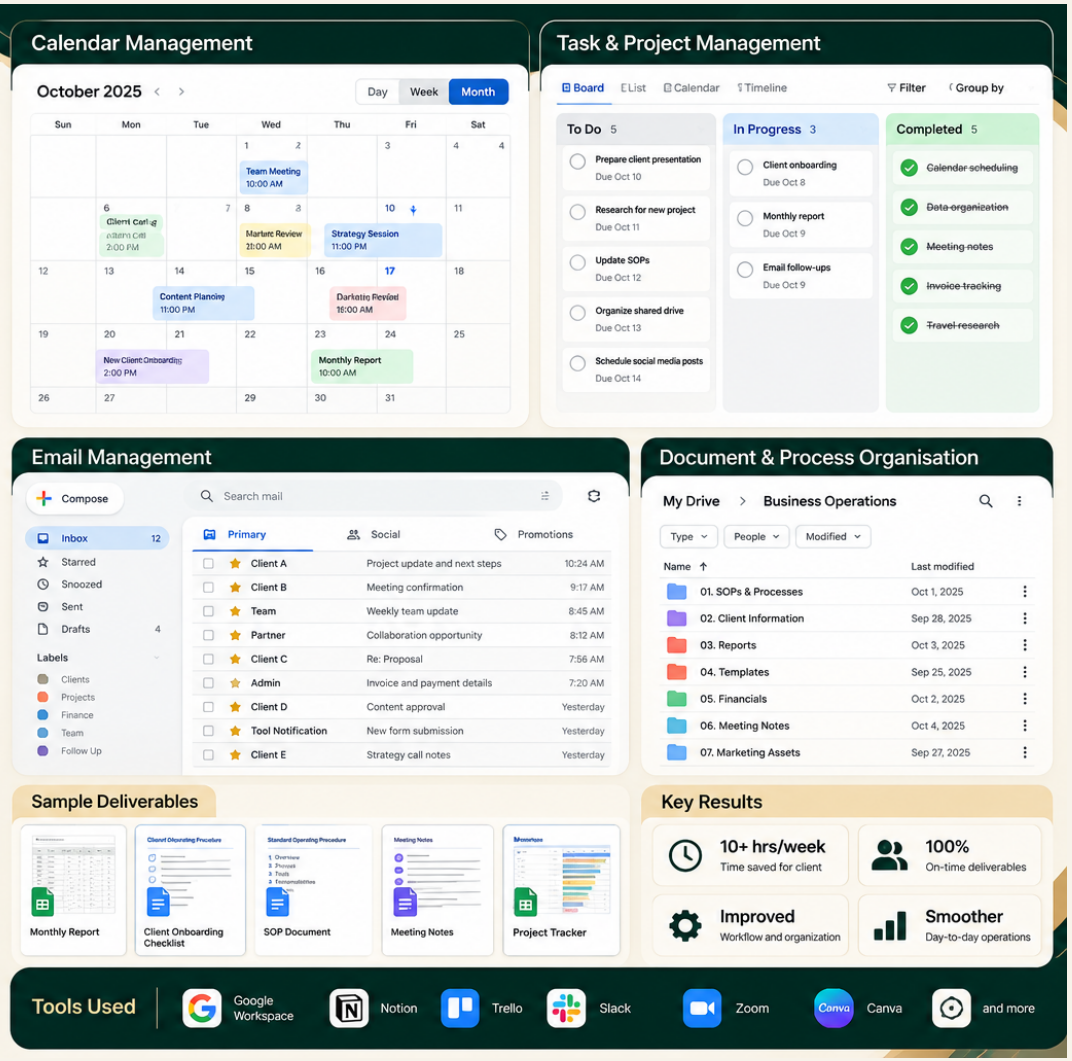
Virtual Assistant | Executive Support | Operations Management | Process Improvement

KEY RESPONSIBILITIES

- Managed calendar and scheduled meetings
- Handled email management and client communication
- Organized files and documents
- Created and maintained SOPs
- Managed project tasks and deadlines
- Coordinated with team members and external partners
- Prepared reports, presentations, and spreadsheets
- Supported daily business operations and special projects

THE RESULT

- Improved organization and time management
- Faster response times and smoother operations
- Streamlined workflows and clear processes
- More time for the client to focus on growth
- Consistent and reliable support



Calendar, email, document and project coordination; example deliverables and operational improvements.

PROJECT 04

SEO Traffic Growth for an Online Fashion Store

End-to-End SEO Management to Increase Organic Traffic by 50% in 5 Months

THE CLIENT

Wonderland By Lilian – a custom fashion e-commerce store selling unique and elegant clothing and accessories.

THE CHALLENGE

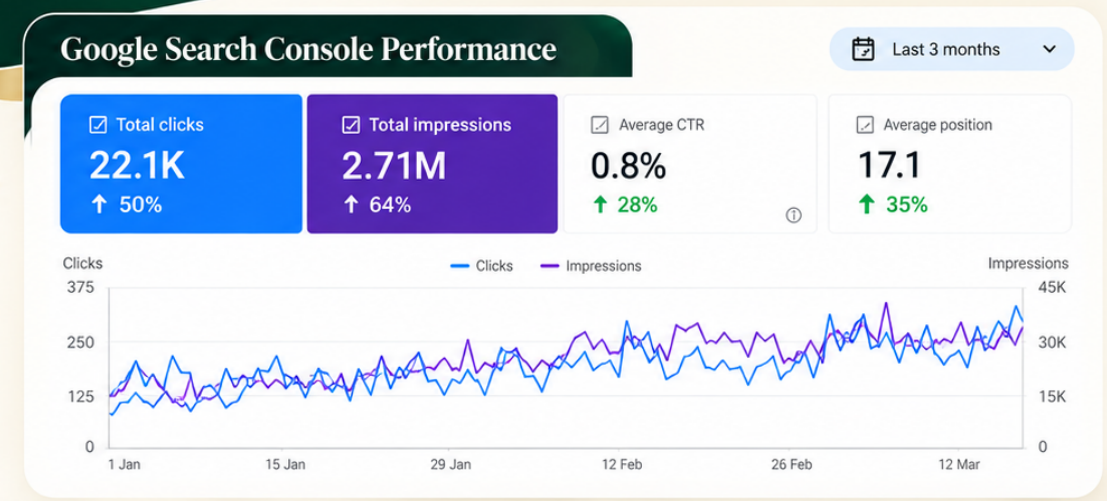
- Low organic visibility and website traffic
- Technical SEO issues (3xx and 404 errors)
- Poor keyword rankings
- Needed a strong content strategy to drive consistent traffic and sales

MY STRATEGY

- Conducted in-depth keyword research
- Fixed 3xx/404 errors and implemented canonical tags
- Optimized on-page SEO (titles, meta, headers, internal links)
- Set up and configured GA4, Google Search Console and Microsoft Clarity
- Developed and executed a blog content strategy
- Implemented quality link building

RESULT

- 50% increase in organic traffic within 5 months
- Improved keyword rankings for key product categories
- More website clicks and impressions
- Higher engagement and time on site
- Stronger foundation for long-term growth



Technical SEO, content optimization, keyword strategy and search-performance case study.

PROJECT 05

Generated Organic Leads for a Dental Clinic

Improving Search Visibility and Patient Inquiries Through Strategic Local SEO

THE CLIENT

A dental clinic looking to increase online visibility, website traffic, and patient inquiries through organic search.

THE CHALLENGE

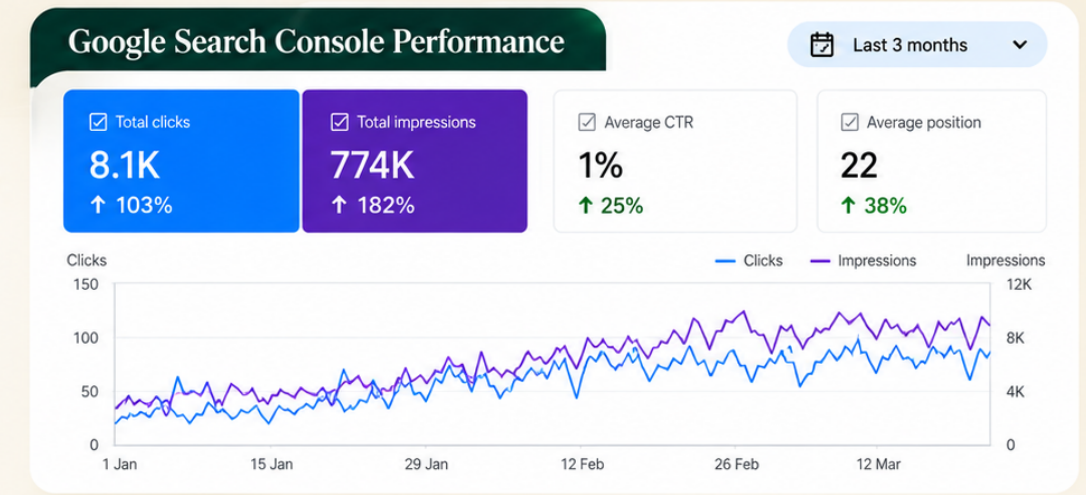
- Low visibility on Google search results.
- Minimal website traffic and patient inquiries.
- Strong competition in the local area.

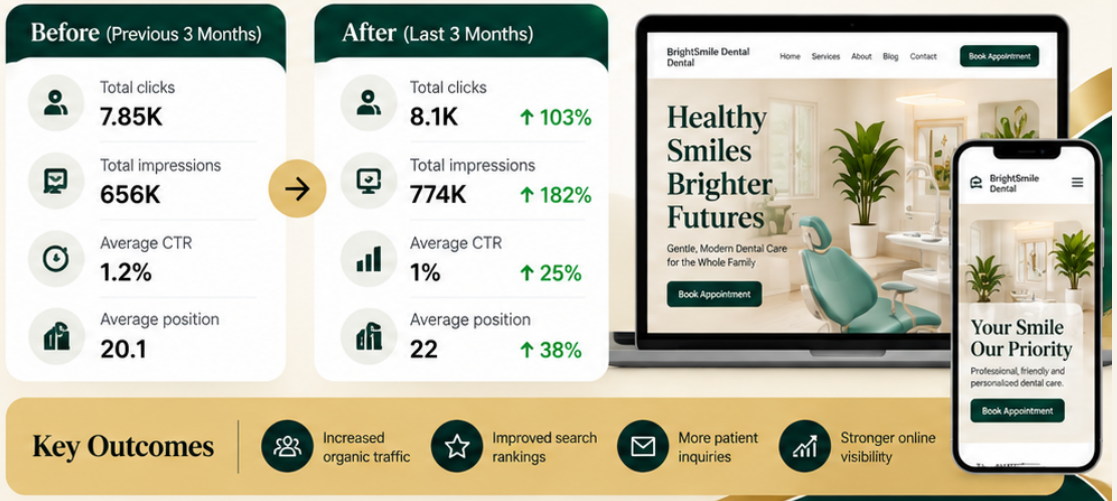
MY STRATEGY

- Conducted in-depth keyword research
- for local and service-based keywords.
- Optimized on-page SEO (titles, meta, headers, content and internal links).
- Created and optimized location-based service pages.
- Set up and monitored Google Search Console.
- Worked on content strategy and blog posts for authority.

RESULT

- Significant increase in impressions, clicks, and average position.
- More website traffic and patient inquiries.
- Improved local search visibility.
- Established a strong foundation for long-term growth.





Local search optimization, service-page improvements and patient inquiry visibility.

PROJECT 07

Content Marketing & SEO Project for CleanEatzKitchen

Refining Blog Content and Building a Strategic Content Cluster to Improve Search Rankings

THE CLIENT

CleanEatzKitchen – a food and wellness brand focused on healthy meals, recipes, and lifestyle content.

THE CHALLENGE

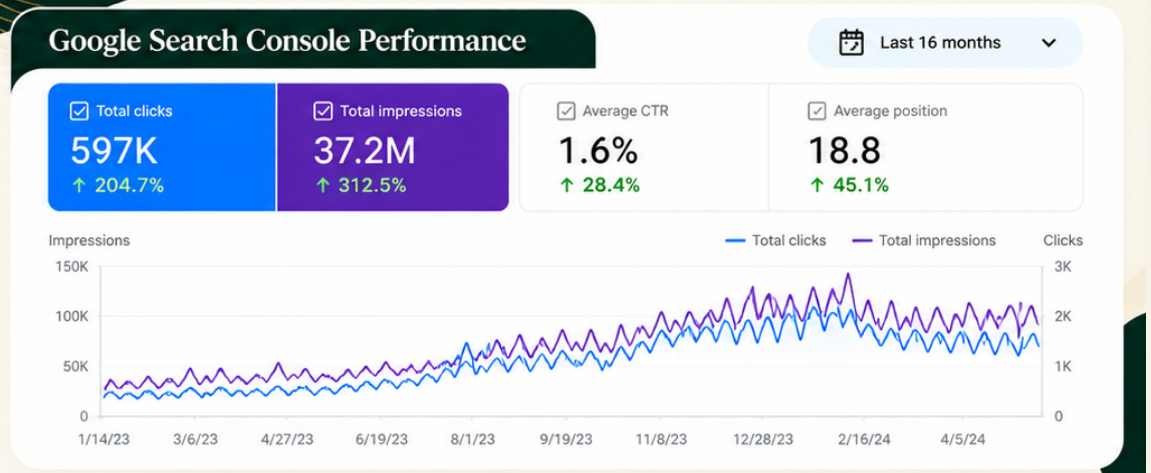
- Existing blog content needed more depth and relevance.
- Low search visibility for key topics.
- Needed a strategic content structure to improve SEO rankings and reader engagement.

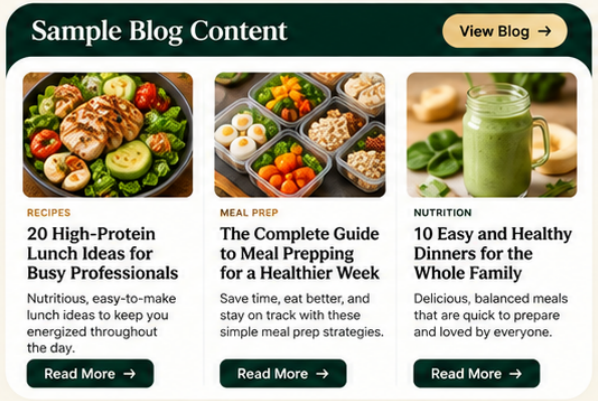
MY STRATEGY

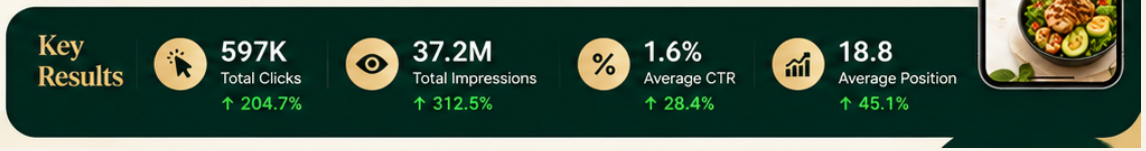
- Audited existing blog articles and keywords.
- Developed a content cluster around key topics (healthy recipes, meal prep, nutrition tips).
- Optimized on-page SEO (titles, meta descriptions, headers, internal links).
- Improved content readability and updated information with valuable insights.

RESULT

- Significant increase in impressions and clicks.
- Improved average position for target keywords.
- Higher reader engagement and longer time on page.
- Stronger topical authority for the website.







Content clusters, blog refresh, on-page SEO and search visibility.

CLIENT WORK

Work Done for Dr. Brittany

THE WHOLENESS MD

Provided virtual assistance, brand and systems support to help streamline operations, enhance online presence, and create a consistent client experience.

THE GOAL

Streamline operations, organize systems, revamp online presence, and support content creation for greater visibility and client engagement.

MY ROLE

Virtual Assistant | Systems & Operations Support | Brand & Design Support | Content Creation

THE SOLUTION

- Email management and organization
- Website revamp (temporary)
- FAQ and client onboarding materials
- Podcast planning and episode support
- Newsletter design and setup
- Social media strategy and graphics
- Folder and file system setup
- Microsoft 365 and email setup

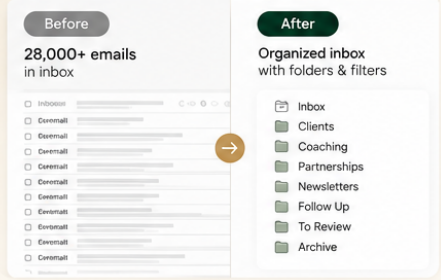
THE RESULT

- Reduced inbox from 28,000+ emails
- More organized systems and workflows
- A polished online presence
- Consistent content and client communication
- Positive client feedback

WEBSITE REVAMP (TEMPORARY)

SOCIAL MEDIA GRAPHICS & CONTENT

EMAIL MANAGEMENT & ORGANIZATION



FAQ & ONBOARDING PACKET

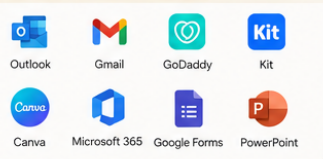
TOOLS & PLATFORMS USED



"Right choice choosing Afri VA and Precious. My inbox is finally under control and everything looks so good!"

— DR. BRITTANY, THE WHOLENESS MD

Inbox reduced from 28,000+

Organized systems

Improved client experience

Executive support, inbox organization, brand assets, website updates, newsletter and onboarding.

PROJECT 02

Meta Ads Management for a Food Delivery Service

Driving Affordable Customer Acquisition Through Targeted Meta Ads

THE CLIENT

A delivery service that partners with restaurants and bars in small towns. They do not own a restaurant but earn a commission from deliveries made through their platform.

THE CHALLENGE

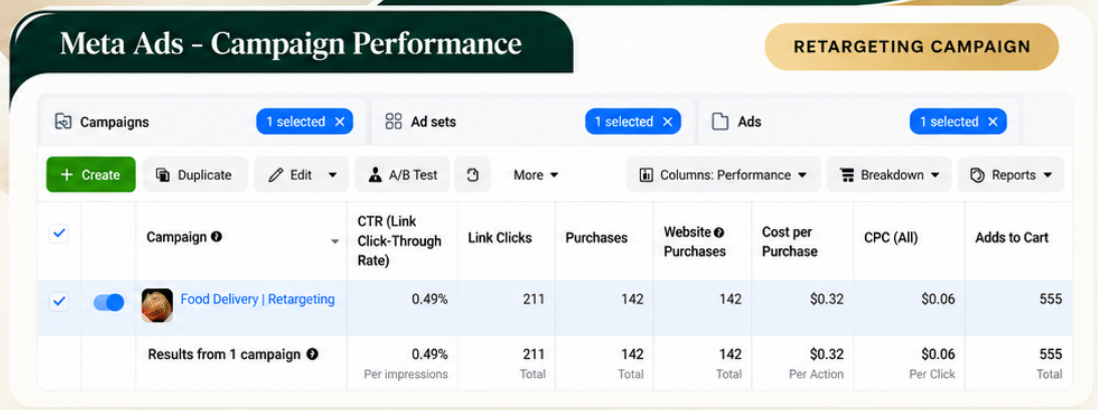
- Low profitability, with some clients generating less than 10% turnover.
- High cost per customer.
- Needed consistent and affordable customer acquisition to grow the platform.

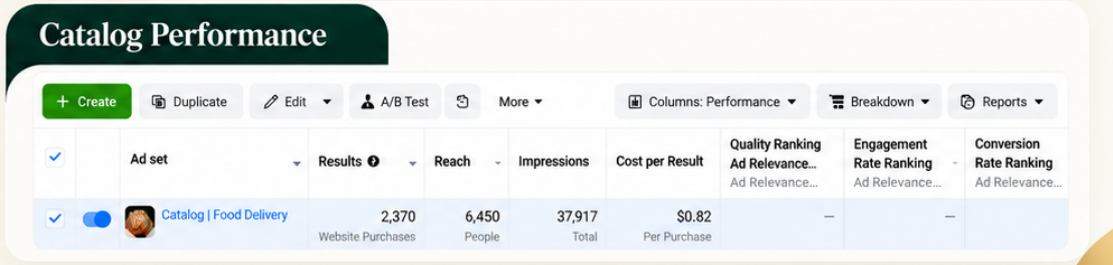
MY STRATEGY

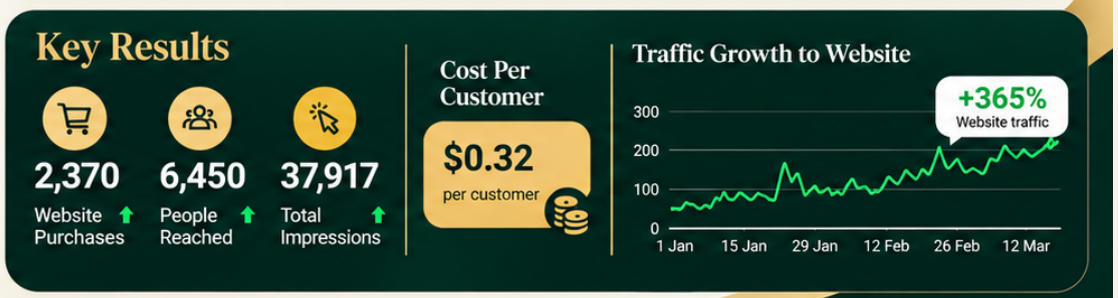
- Created and managed targeted Meta ad campaigns (Facebook & Instagram).
- Focused on driving traffic to the client's website and retargeting interested users.
- Optimized ad creatives, audience targeting and bidding strategy to reduce cost per customer.

RESULT

- Acquired new customers at a cost below $1 per customer (not just leads).
- Significant increase in website traffic and conversions.
- Stronger brand presence and recognition in the local market.







Audience targeting, retargeting, campaign optimization and reported acquisition outcomes.

The Shalom Protocol | Brochure design

THE SHALOM PROTOCOL

You've been treating symptoms. It's time to heal the root.

You've tried the sleep trackers, the supplements, the "just rest more" advice. And you're still exhausted, foggy, and inflamed.
That's not a personal failure. It's a sign that your body has been in survival mode for too long – and no amount of surface-level self-care will fix it.

The SHALOM Protocol is different.

Physician-led, faith-centered, and built on root-cause science. Over 8 weeks, you'll learn why your body has been stuck and exactly how to guide it back to wholeness.

DR. BKC

THE WHOLENESS MD™

THE SHALOM PROTOCOL

8 WEEKS TO A BODY, MIND & SPIRIT THAT FINALLY AGREE

THE SHALOM PROTOCOL IS LIMITED TO 8 WOMEN PER COHORT.

COST: $1,800
